Beirut, Lebanon | +9613096433 | [maya.atiah.99@gmail.com](mailto:maya.atiah.99@gmail.com) | [LinkedIn](#) | [GitHub](#)

## Profile

---

A Junior Full-Stack Developer experienced with popular frameworks and libraries such as React, Laravel, and NodeJs. Attended Codi-Tech, a web development boot-camp where I learned new technical and soft skills including new languages, group work, managing a team, and following the AGILE Methodology in every project. In addition, I am interested in designing and structuring wireframes.

## Experience

---

**Full-Stack Web Developer** | Nov 2022 - June 2023

**Codi Tech** | Beirut, Lebanon

- Worked on various Backend of projects using different languages and platforms including: Node js, Express js, javascript, Php, Laravel, SQL, MySQL, and NoSQL
- Worked on different projects as Frontend using different languages and open sources including: Javascript, React, and Bootstrap
- Worked with Linux (Ubuntu) and LAMP Stack as a Server Management
- Applied the Agile Methodology to plan and organize the flow through the projects
- Developed a website on a Content Management System, Wordpress

**Data Analyst** | May 2022 - June 2022

**Scoop of Design** | Remote

- Analyzing data using statistical techniques, implementing and maintaining databases.

## Projects

---

**[Vital Blood](#)** | MERN Stack | (Repos: [Backend](#) | [Frontend](#)) | [Video Demo](#) | [Deployed Link](#)

Vital Blood is a blood donation website built with MERN Stack. It includes the ability to fill a form request and send an email to all the users in the website by nodemailer in Node js.

**[E-commerce StepUp](#)** | MERN Stack | (Repos: [Frontend](#) | [Backend](#)) | [Video Demo](#) | [Deployed Link](#)

Built an e-commerce website using React js for frontend and Node js for backend and mongodb for database. It includes an admin dashboard for updating, deleting, and adding.

**[Learning Management System](#)** | LAMP Stack | (Repos: [Frontend](#) | [Backend](#)) | [Video Demo](#)

Built an LMS project using React js and React native, and Laravel for backend. Including multiple users and roles with different privileges.

**[Portfolio](#)** | MERN Stack | (Repos: [Frontend](#) | [Backend](#)) | [Deployed Link](#)

Designed and developed a portfolio with a dashboard for the admin to edit the content using JWT for authentication, React js as frontend and Node js for backend and mongodb for database.
